

Quick Reference Guide

Including eConsult Attachments and Documents

Please do not include

any patient identifiers in the name of your

attached file

Whether you are a Primary Care Provider (PCP) sending an eConsult, or a Specialist responding to an eConsult, you can add attachments or documents/reports to your eConsult to supplement your consultation.

External Attachments

To add an image, video, pdf, or text file to your eConsult, click 'Choose a file...' from the top portion of the eConsult page.

Select the file you would like to attach to your eConsult and the file name will appear within the 'External Attachments' section.

HEALTHe NL Documents

To link a report such as a lab result, clinical document, or DI report from the patient's HEALTHe NL profile, click 'Link Document' from the top portion of the eConsult page.

A separate window will open, listing the patient's reports available to link. Narrow your search by date range, author of report, or category of result. Then select the report to link it.
